

Pendulum readings for spirit communication

friendlyspecter.com

Clear the pendulum with three taps

Open the session – invite only spirits of light

Program the pendulum – yes or no (and maybe)

Ask questions – clear concise yes/no questions

Ask for directions to haunted objects or sites

Watch your step! Don't be tricked by evil spirits

Take notes of the communication

Stop if anything feels off or strange

Close the session – say goodbye and close the pendulum by prohibiting further communication.

Store the pendulum in a safe and dignified place.
